Dear Mr Anton,

thank you for the good work done.

We received just last week the comments from the JRC, our technical service.

The JRC comments are as follows:

- The consolidated EP seems to have incorporated most of the comments we gave in Dec 2022.
- In line with our previous assessment, the number of Evaluation Questions (EQs) has decreased from 50 to 29, and they now seem more tailored to the current scheme.
- The list of EQs can be trimmed even further by excluding ""output questions "" like EQ.B.2 ""How many enterprises/projects/beneficiaries have received the aid under the scheme?"". These are interesting questions but, strictly speaking, they are of secondary importance for the evaluation of the policy (for instance, one could present these figures in a separate section describing the characteristics of the scheme output).
- The result indicators have been specified in a more precise way.
- It incorporates some methodological advise we gave in December, which is also good.

On this basis, you can go ahead and finalise the layout of the document.

Best regards,

Daniele Vidoni for DG COMP

Dear Mr. Vidoni,

we haven't received any feedback yet, does that mean we can already finalize the layout of the

submitted version in terms of accessibility standards?

Since we soon need to start with preparations for the evaluation process next year, we would be grateful for your reply until April 21.

If we don't get any feedback by then, we will assume that there are no further comments to the final draft and we can finalize the layout.

Best regards,

Anton Jakob

Dear Mr Vidoni,

please find attached the revised final draft of the Report on Evaluation Methodology and the revised/completed III.8.

As requested in the comments, some questions have been restructured, some have been specified and some have been removed to focus on a narrower set of them.

We would be grateful for your feedback as soon as possible so that we can finalize the layout in terms of accessibility standards.

Best regards,

Anton Jakob

Dear Mr Anton,

Please find attached our comments. I was sure to have sent them before the break, and I apologize if you have not received them.

Overall, the report is going in the good direction, but there are still some weaknesses that should be addressed as indicated in the attached document.

To give you enough time to address our comments, is fine if you submit the revised version by Feb 17, 2023.

Best regards,

Daniele Vidoni for the team

Dear Mr. Vidoni,

we haven't received any comments yet, does that mean we can already finalize the submitted version?

Since we should deliver the revised version of the report already by the end of January, we would be grateful for your reply until January 16.

If we don't get any feedback by then, we will assume that there are no further comments to the final draft and we can finalize the layout.

Best regards,

Anton Jakob

Dear Mr Jakob,

Thank you for your email and for the documents attached.

Unfortunately, we will be able to provide comments in writing only by December 9.

Given that we have already received the draft report, we can certainly postpone a bit the date of delivery of the revised version of the report.

Would you agree to deliver the revised version of the report by the end of January 2023?

Best regards,

Daniele Vidoni for the Team

Subject: SA.58731 - Evaluation Methodology Report

Dear all,

in our previously submitted Austrian Evaluation Plan (regarding SA.58731), a First Methodological Interim Evaluation Report was scheduled to be submitted to the European Commission 9 to 12 months after the notification of the market premiums is completed.

Please find attached the final draft of the Report on Evaluation Methodology and the revised/completed III.8.

We would be grateful for your feedback or comments until the 30th of November.

Best regards,

Anton
